

# LET'S MAKE SPIDER PIZZAS

You'll need:

- English Muffins
- Pizza Sauce
- Mozzarella Cheese
- Pepperoni (optional)
- Black Olives

1. Spread half of an English muffin with some pizza sauce. Add a slice of pepperoni and cover it with mozzarella cheese.
2. Bake at 450 degrees for 4 minutes or until cheese melts. Remove from oven to add olive spiders.
3. Brush 2 large olives with olive oil to make them shiny. Slice off the "star" end to make the front part of the spider's body (cephalothorax)
4. Cut a second olive in half lengthwise to make the back part of the spider's body (thorax)
5. Cut the extra olive pieces crosswise to make legs and pedipalps.

## Dangerous Spiders

Spiders are very interesting to learn about, but some spiders can be dangerous. Grownups who love you can help you stay safe when you are looking at spider webs and spiders.

Here are two spiders to watch out for:

**Black Widow**

**Brown Recluse**
